DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/26/08 has been entered.

Specification

2. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: support must be provided in the specification for the term "stiffening member".

Claim Objections

3. Claim 18 is objected to because of the following informalities: there is no antecedent basis for the term "lateral attachment member". It is suggested that this term be changed to -- attachment member --. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. Claim 24 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had

possession of the claimed invention. There is no original disclosure directed to a stiffening member "extending substantially along the length of the spine member between the first and second ends thereof" or to "whereby the stiffening member maintains rigidity of the spine member ... said lateral plane" as now set forth in this new claim. The only original disclosure directed to a stiffening member is set forth in original claims 6 and 7, and these claims do not support the above quoted language. Also, there is no original disclosure directed to an attachment arm that "is maintained in the second lateral plane of the spine member" as set forth in line 8.

Allowable Subject Matter

5. Claims 1-5, 7, 9-18, 20 and 21 are allowed.
